

CricketMax²

Advanced Cricket GLD

züküüdla

Local wisdom—Global knowledge. Proudly made in Canada.

About CricketMax²

A new, highly advanced cricket GLD developed by zoo nutritionists and entomologists. CricketMax² GLD sets a new bar for reptile nutrition.

Healthy Bones

Promotes the development of strong bones.

Healthy Eyes

Helps prevent vitamin A deficiency and symptoms.

Less Waste

Optimal form and palatability for 100% consumption.

Life stage—All stages

Suitable for all stages of development.

CricketMax²

Advanced Cricket GLD

DESCRIPTION

Züküdla CricketMax² was formulated based on years of scientific research to provide a complete nutrient package for captive wildlife species such as insectivorous reptiles and amphibians. This diet, therefore, will address nutritional issues seen in these species due to captivity. Feed crickets Züküdla CricketMax² for 1-2 days and follow the feed and care instructions provided to ensure maximum gut-loading. Züküdla CricketMax² can also be used to rear and gut-load other feeder insects, such as mealworms. **Freshness guaranteed!**

FEATURES AND PROVEN BENEFITS

OPTIMUM NUTRITION

- Quality ingredients such as spirulina flake and sweet potato flour provide high quality protein, beta-carotene, vitamins and essential fatty acids
- Complete balanced nutrient profile including balanced Ca:P, beta-carotene, amino acids, fatty acids, vitamins A, B₁, B₆, C, D₃, E
- Optimize overall health of pet in all life stages
- Natural vitamin sources in liquid form maximize absorption

GUARANTEED TO GUT-LOAD

- Proven to achieve 1:1 calcium to phosphorus ratio after 1 day with a maximum of 1.7:1 calcium to phosphorus ratio after 2 days
- Total diet tested for palatability for maximum consumption
- Optimum particle size ensures all components of diet are mixed so target nutrient levels are delivered

LESS WASTE

- The particle size and lower palatability of other diets result in waste
- Crickets of all sizes will eat virtually 100% of Züküdla CricketMax² leaving little to no waste
- Particle size maximizes consumption of all diet constituents
- High palatability of all ingredients maximizes intake and minimizes waste

Guaranteed Analysis

Crude Protein (min.)	19.5%
Crude Fat (min.)	5%
ADF (max.)	9%
Calcium	7%
Phosphorus	0.6%
Vitamin A	53000 IU/kg
Vitamin D ₃	8000 IU/kg
Vitamin E	1300 IU/kg

NOTE:

Züküdla CricketMax² GLD is not fed to insectivores directly. It only makes a complete diet when properly gut-loaded in the feeder insect.
