PRODUCT FORM

Cube (3/8" x 5/8" x 1")

PACKAGING

20kg bags

FEEDING INSTRUCTIONS

Züküdüla Rodent Cubes should be fed ad lib to rodents. Provide a clean, fresh water supply. Ensure that adequate feed bowls and waterers are available for the number of rodents being housed.

STORAGE

Dry feeds should be stored under clean, dry, ventilated conditions, and out of direct sunlight to protect against high temperatures, humidity, moisture, insects and unwanted rodents. Store feed bags on wooden pallets and maintain several inches between pallets and surrounding walls to ensure adequate ventilation. Before feeding ensure there is no mold or contamination of feed. Ideally, feed should be used within two months of manufacture.

Guaranteed Analysis

Crude Protein (min.)	18%	Phosphorus (%)	0.6
Crude Fat (min.)	6%	Vitamin A (IU/kg)	11,000
Crude Fibre (max.)	6%	Vitamin D (IU/kg)	5,000
Sodium (%)	0.4	Vitamin E (min. IU/kg)	50
Calcium (%)	1.0		

Approximate Nutrient Composition (As-fed)

Moisture (%)	10.4	Choline (mg/kg)	1452
Crude Protein (%)	18.0	Folic Acid (mg/kg)	2.35
Crude Fat (%)	6.0	Niacin (mg/kg)	143
Crude Fibre (%)	6.0	Pantothenic acid (mg/kg)	26.9
ADF (%)	8.4	Pyridoxine (mg/kg)	9.4
NDF (%)	18.3	Riboflavin (mg/kg)	10.9
